

REMARKS

The specification has been amended as follows:

- a. Page 3, line 4: --WO ~~01/3594~~ 01/35940 and WO ~~01/3594~~ 01/35941--.
- b. Pages 14, line 3: --38-42°C[.]; atomization pressure of 28-40 and spray ~~spay~~ rate--.
- c. Page 16, line 6: --spray ~~spay~~ rate--.
- b. Page 22, line 8: --dispersion is ~~than~~ then sprayed--.
- c. Page 22, line 34: --suspension is ~~than~~ then applied--.
- d. Page 25, line 14: -- dispersion is ~~than~~ then--.

No new matter has been added. Support for the amendments may be found at least in the original specification where the subject matter of WO 01/35940 and WO 01/35941 is explained at page 3, lines 2-5. The amendments on pages 14, 16, 22 and 25 merely correct typographical errors.

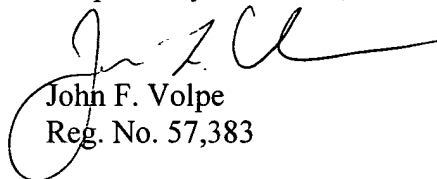

In addition, claim 14 has been amended to read "not more than ~~0.5%~~ 0.6%."

No new matter has been added. Support for this amendment may be found in the original specification at page 12, line 18. Finally, claim 28 has been amended merely to correct typographical errors.

* * *

Early and favorable action is earnestly solicited.

Respectfully submitted,

John F. Volpe
Reg. No. 57,383
